Safety Tips / Announcements

YOU GOT THE JOB SCAM

An email comes from what appears to be a legitimate source: large corporation, college or university, etc. saying they want to hire you.

You respond saying you are interested and they send you an application to fill out. Once you fill it out and send it back - YOU ARE HIRED!

A person contacts you and says they are sending or depositing a check to your account for you to purchase supplies. You deposit the check, and then...

The person asks you to use a cash app to pay a few vendors for the job or asks you to purchase gift cards. You send the money to the vendors or purchase gift cards and provide the numbers, only to find out a few days later that the check they sent you was fake. You are now out the money.

THINGS TO CONSIDER

- Fake checks look like real checks.
- Banks have to make deposited funds available quickly, usually within two days.
- When the funds are made available in your account, the bank may say the check has "cleared," but that doesn't mean it's a good check.
- Fake checks can take weeks to be discovered and untangled. By that time, the scammer has any money you sent, and you're stuck paying the money back to the bank.
